

BUSINESS PROFILE: Nabarro

Nabarro is a major corporate law firm renowned for its positive, practical approach. They operate across a number of industry sectors and legal disciplines with a single aim: to deliver the highest quality advice as clearly, concisely and cost effectively as possible, no matter how complex the situation.

Nabarro is an international firm with offices in London, Sheffield, Singapore and Brussels. The move to Sheffield in 1996 meant they were closer to key clients in the region in a city with a good infrastructure and transport links to London.

“Sheffield is good value for money in comparison to rival business centres such as Leeds and Manchester. As a firm, we feel that we can grow from our base in Sheffield.”

Niall Logan, Head of Office

With a Sheffield Office of over 200 employees, recruitment and career progression are key factors within the organisation, reflected in the Talent Development programme and the fact that all staff are given the opportunity to progress. The company attracts candidates from Sheffield, Manchester, Leeds and Nottingham, plus those relocating from London. Having two excellent Universities in the City producing high quality graduates is important to Nabarro.

Staff satisfaction is crucial, in order to attract and retain high quality candidates. A recent staff satisfaction survey showed that 91% of staff enjoyed their jobs and 80% planned to stay. The regeneration in the city has helped Sheffield to become a more popular place to live and work.

The Sheffield office is also home to some of Nabarro's key business service functions for the whole firm; IT support, facilities management, document production, HR, business development and marketing, secretarial support and switchboard.

Nabarro are a major employer in Sheffield, with a well embedded growth strategy. They are an importer of work and fees into the region; income secured from outside of the region benefits the local economy. Nabarro are investing in their business through a new sector strategy, focussing on sectors including manufacturing, energy & fast growth companies. Sheffield's thriving Advanced Manufacturing and CDI sectors further enable their growth strategy.

“We work with clients regionally, nationally and internationally. We do business where our clients do business. As our clients grow internationally, we want to grow with them...”

Nabarro's aspiration is to act as City Ambassadors in order to raise the profile of Sheffield and what it can provide for businesses outside the region.
